

HOW A GUY WITH SEVERE PANIC ATTACKS BEAT ANXIETY

My Personal Story

MICHAEL G.

REALITY CHECK

Panic Attack

TURNING POINT

My doctor suggested CBD Oil

CURRENT ROUTINE

Daily Exercise, Healthy Diet, Happy Tea CBD

FACTS ABOUT CBD

- CBD is NOT psychoactive, which means it won't get you high and contains ZERO THC.
- CBD is legal in all 50 states and is completely natural.
- NCBI stated that evidence strongly supports CBD as treatment for anxiety disorders.
- CBD has been shown to help with chronic pain, depression, PTSD, inflammation, sleep disorders, addiction, and even diabetes.

I'm Michael Gonzalez, and I'm the Founder & CEO of Happy

Tea. Just over a year ago, I found myself battling anxiety after a severe panic attack. Before that attack, I owned a thriving business and had everything I could possibly want...but I also had complete mental/physical exhaustion, overwhelming stress levels, and no social life (because I didn't want to have a panic attack in public). That panic attack changed everything. I began the relentless pursuit of a way to overcome my anxiety so that I could take back my life.

THE CHALLENGE

Most people think that they have to handle it alone.

In the past, I struggled with sticking to a specific plan to combat my anxiety disorder. Many of the blogs and lists I read wanted you to see therapists, chant mantras, and do guided meditations to help you stop stressing, ease your mind, and calm your anxiety.

That wasn't going to work for me. It's not my personality to try something and HOPE that it would help. I needed something REAL.

Beyond that, I needed options that wouldn't force my lifestyle to be built around having large blocks of time where I couldn't be bothered (I'm sure your schedule is chaotic, too, so you understand) Trendy methods aren't great if you're already crunched for time, which is what led me to researching which tools and practices would have the biggest (and most immediate) impact. That's why I designed Happy Tea.

That panic attack changed everything. I began the relentless pursuit of a way to overcome my anxiety so that I could take back my life...

THE SOLUTION

A natural solution with benefits on stress, anxiety, and pain.

With Happy Tea, I built a convenient way to get my daily dosage of CBD that's quick, tastes great, and is easy to carry when you're on the go. It's just not feasible-or realistic-to carry around a vial of oil so that you can get your CBD.

By careful planning, testing, and getting feedback, we created the original dissolvable CBD drink. Each pack contains 10mg of HEMP CBD powder that is ready whenever you need it. Just add water, shake, and enjoy!

We spent months testing, tweaking, and perfecting Happy Tea to give you the best all-natural, CBD product on the market. AND, it's made in the US!

But the thing that really sets Happy Tea apart? We never cut corners on anything. We use the highest quality CBD, from the highest rated manufacturers, and use the highest quality ingredients. The truth is, there are tons of CBD products on the market--and more are going to come--but our focus is solely on YOU and providing you with a product that you can use to improve the quality of your life.

THE RESULTS

0 Panic Attacks. 0 Missed Opportunities. 100% Recovered.

The results I've gotten are living proof that the right habits and products can improve the quality of your life and help you beat your anxiety. On top of losing my anxiety, I've also improved my ability to focus, increased my energy levels, stabilized my mood, and eliminated the social anxiety I used to feel.

If you think there's a chance that you MIGHT be able to benefit in your health or happiness, I believe that trying Happy Tea can help you immediately.
